## Terms of Acceptance

The goal of our office is to enable patients to gain control of their health. To attain this we believe communication is the key. There are often topics that are hard to understand and we hope this document will clarify those issues for you.

Please read the below and if you have any questions please feel free to ask one of our staff members.

### Informed Consent:

A patient coming to the doctor gives him/her permission and authority to care for them in accordance with appropriate test, diagnosis, and analysis. The clinical procedures performed are usually beneficial and seldom cause any problem. In rare case, underlying physical defects, deformities, or pathologies may render the patient susceptible to injury. The doctor, of course, will not provide specific healthcare, if he/she is aware that such care may be contraindicated. It is the responsibility of the patient to make it known or to learn through health care procedures from whatever he/she is suffering from: latent pathological defects, illnesses, or deformities, which would otherwise not come to the attention of the physician. This office does not perform breast, pelvic, prostate, rectal, or full skin evaluations. These examinations should be performed by your family physician, GYN, and dermatologist to exclude cancers, abnormal skin lesions that should undergo biopsy/removal or other treatments. This clinic does not provide care for any condition (such as high blood pressure, diabetes, high cholesterol) other than those addressed in your physical medicine care plan. We also do not prescribe or refill ANY controlled substances. All prescriptions should be refilled by your original prescriber and any new prescriptions should be issued by your primary care provider.

A patient, in coming to the chiropractic doctor, gives the doctor permission and authority to care for the patient in accordance with the chiropractic and physical medicine tests, diagnosis, and analysis. The chiropractic adjustment or other clinical procedures are usually beneficial and seldom cause any problems. In rare cases, underlying physical defects, deformities or pathologies may render the patient susceptible to injury. The doctor, of course, will not give any treatment or care if he/she is aware that such care may be contra-indicated. Again, it is the responsibility of the patient to make it known, or to learn through healthcare procedures what he/she is suffering from: latent pathological defects, illnesses or deformities which would otherwise not come to the attention of the chiropractic or medical physician. The doctor provides a specialized, non-duplicating health care service. Your doctor of chiropractic is licensed in a special practice and is available to work with other types of providers in your health care regimen. I understand that if I am accepted as a patient by a physician at **Teasel Chiropractic Clinic**, I am authorizing them to proceed with any treatment that they deem necessary. Furthermore, any risk involved, regarding chiropractic or physical medicine treatment, will be explained to me upon my request.

The patient assumes all responsibility/liability if the patient does not report on health forms any past medical history, illnesses, medicines, or allergies.
